SUPPLEMENTARY INFORMATION:

A. Overview of Information Collection

Description of the Information Collection

1. Type of Information Collection: Revision/Renewal of a currently approved collection.
2. Title of the Collection— Quality Assurance Requirements.
3. Agency form number, if any: none.

Solicitation of Public Comment

Written comments and suggestions from the public should address one or more of the following four points: (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection

techniques or other forms of information technology, e.g., permitting electronic submission of responses.

B. Purpose

Supplies and services acquired under Government contracts must conform to the contract's quality and quantity requirements. FAR Part 46 prescribes inspection, acceptance, warranty, and other measures associated with quality requirements. Standard inspection clauses require the contractor to provide and maintain an inspection system that is acceptable to the Government; give the Government the right to make inspections and test while work is in process; and require the contractor to keep complete, and make available to the Government, records of its inspection work. FAR clause 52.246-15, Certificate of Conformance, is not an inspection clause, but a requirement for the contractor to certify that supplies or services furnished are of the quality specified and conform in all respects with the contract requirements.

B. Annual Reporting Burden

1. Inspection Clauses:

The FAR inspection clauses are used for quality assurance depending on the type of contract and the type of product or service being provided. The corresponding quality/inspection systems the

contractors are required to implement have requirements for record keeping and in some cases documenting the quality or inspection system. These clauses do not require the transmittal or sending of documentation to the Government. Instead, the Government may review these records to confirm the contract quality requirements are being met. Definitive information was not available on how often the Government requests to see these records. The time required to provide the records is estimated as follows:

Respondents: 1,590.

Responses Per Respondent: 1.

Total Responses: 1,590.

Hours Per Response: 1.

Total Burden hours: 1,590.

2. Certificate of Conformance:

FAR clause 52.246-15 is used in solicitations and contracts for supplies or services at the discretion of the contracting officer when it is in the Government's interest, small losses would be incurred in the event of a defect; or because of the contractor's reputation or past performance, it is likely that the supplies or services furnished will be

acceptable and any defective work would be replaced, corrected, or repaired without contest. The clause requires the contractor to submit a prescribed certificate. The time required to submit the certificate is estimated as follows:

Respondents: 639.

Responses Per Respondent: 1.

Total Responses: 639.

Hours Per Response: .5.

Total Burden hours: 320.

OBTAINING COPIES OF PROPOSALS: Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street, NW, Washington, DC 20405, telephone 202-501-4755.
